

“Home Lift” destinato al trasporto di persone e cose rispondente ai requisiti della direttiva macchine 2006/42/CE. Elfo è un elevatore “su misura” infatti dimensioni, porte, accessori, colori e materiali sono configurabili in base ai gusti del cliente. Home Lift richiede una fossa di pochissimi centimetri evitando la necessità di costose opere murarie, può essere fornito con struttura metallica in acciaio verniciato o acciaio inox, da installare all’interno o all’esterno dell’edificio. La grande flessibilità e la cura dell’estetica fanno di **Elfo** un vero oggetto d’arredamento, caratteristiche queste che la rendono la soluzione ideale per installazioni domestiche, uffici, attività commerciali o singole unità immobiliari.

“Home Lift” is intended for the transportation of persons and things in pursuant to Directive 2006/42/EC. It can be personalized on the needs of the final user. It requires a shallow pit avoiding the necessity of expensive masonry works. Home Lift can be supply with a metal structure to be installed either inside or outside the building. The great flexibility and the care for aesthetical details makes **Elfo** a truly interior design object, becoming an ideal solution for domestic installations, commercial activities and single units.

“Home Lift” destinado al transporte de personas y cosas que cumple con los requisitos de la ley 2006/42/CE. Elfo es un elevador “a medida” dimensiones, puertas, accesorios, colores y materiales se pueden configurar en base a las exigencias del cliente. Elfo requiere un foso de pocos centímetros evitando la necesidad de costosas obras de albañilería, puede ser suministrado con estructura metálica en acero barnizado o acero inox, se puede instalar indiferentemente al interior o al exterior del edificio. La gran flexibilidad y la atención a la estética hacen que Home Lift sea un autentico objeto de aredamiento, características que lo convierten en la solución ideal para instalaciones domésticas, oficinas, empresas comerciales o unidad inmobiliarias individuales.

“Home Lift” certifié CE selon la Directive Machines 2006/42/CE et suivantes. Un produit personnalisable selon les exigences de l'utilisateur. Il s'adapte à tout type de gaine et il peut être installé dans tout type de bâtiment à l'intérieur et à l'extérieur, exposé aux intempéries. La plate-forme Home Lift pouvant être installée très facilement, a besoin d'une fosse de peu de centimètres en évitant ainsi à l'utilisateur des travaux de maçonnerie onéreux.

Home Lift ist mit CE-Kennzeichnung gemäss der Maschinenrichtlinie 2006/42/CE und nachträglichen Ergänzungen. Die Anlage kann nach den Bedürfnissen des Nutzers individuell gestaltet werden. Er passt sich jedem Schacht oder Aufstellbereich an und kann sowohl in Innen-als auch im der Witterung ausgesetzten Außenbereich installiert werden. Der leicht zu installierende Home-Lift Senkrechtlift benötigt lediglich eine Grube von 13 cm. Dadurch bleiben dem Nutzer aufwendige bauseitige Leistungen erspart.

* 0,3 m/s per mercato extra europeo (no CE)
 * 0,3 m/s out of Europe (not EC)
 * 0,3 m/s para el mercado extraeuropeo (no CE)
 * 0,3 m/s dehors de l'Europe (no CE)
 * 0,3 m/s außerhalb Europas (no CE)

** La corsa massima è funzione dei pesi di cabina
 ** The maximum travel depends on the cabin weights
 ** Recorrido máximo en función del peso de la cabina
 ** La course maximale est une fonction des poids de la cabine
 ** Die max. Förderhöhe hängt vom Kabinengewicht ab
